

GENERATIONAL WEALTH

Capital with a destination.

The global standard for on-chain real estate. A perpetual, AI-Augmented real estate fund, built to compound across generations.

Real estate is a \$400 trillion asset class running on
1960s infrastructure.

GLOBAL REAL ESTATE MARKET

STANDARD NAV REPORTING LAG

FORCED FUND-LIFE CYCLES

MIN TICKET • High Alpha Table

Access is gated by ticket, residency, tax jurisdiction, and paperwork. Fund-life models force exits at the worst moments in the cycle. Quarterly NAV reports lag the market by 90 days. Intermediaries capture most of the return; holders bear the risk.

The first wave of tokenization left *investment cemeteries*.

WHAT BROKE

- Single-asset tokens, no diversification.
- No secondary market depth, effectively illiquid.
- Static valuations from infrequent appraisals.
- Regulatory ambiguity, failed securities tests.
- No institutional-grade governance.

WHAT GRES DOES DIFFERENTLY

- Diversified perpetual fund: one share, full portfolio.
- Foundation-secured custody of the underlying deeds.
- AI-Augmented valuation: daily NAV, on-chain.
- MiCA-aligned from day one, passportable in the EU.
- Dual-entity governance: custody separated from ops.

Purpose and performance were *never opposites*.

GRES is the capital partner to solid, profitable businesses where real estate is fundamental to the operation, and which are building for the future. We call it smart development: real impact and a sound business, on their own merits. Not every green label belongs; not every grey one is excluded. What matters is whether the impact is real.

Is this a solid, profitable business, where real estate is fundamental to the operation, and is it building for the future of the planet and the generations generations who'll inherit it?

A perpetual real estate fund, with *institutional-grade architecture*.

01

Swiss-style Foundation

100% of property deeds held held by an independent Foundation modeled after after Swiss law. Not the treasury. Not the founders. founders.

02

AI-Augmented Valuation

Daily NAV via verifiable on-on-chain comparable analysis. Methodology open. open. Human governance governance reviews every every exception.

03

MiCA-Aligned Issuance

Token structure designed for for European compliance from day one. Passportable Passportable across 27 EU EU markets.

04

Perpetual Structure Structure

No fund-life clock. No forced forced liquidation. Real estate is a 30-year asset class; it needs the right structure.

Custody and operations, *separated by design.*

INDEPENDENT · MODELED AFTER SWISS LAW · NO EQUITY BY DESIGN

GRES Foundation

- Holds 100% of property deeds and titles.
- Bankruptcy-remote, structurally isolated.
- Trustees hold the Master Key for custody governance.
- Designed to outlast its creators.

FOR-PROFIT CORPORATION · WHERE EQUITY EXISTS

GRES Operator

- Technology, distribution, day-to-day operations.
- AI Oracle, Builder pipeline, KYC layer.
- Generates revenue: fees, carry, spreads.
- Where institutional capital can hold equity.

G

Generational

Impact beyond the financial: the planet and the generations to come.

G

Global

We bring anyone, anywhere, to the high-alpha alpha table.

G

Governed

Blockchain as transparency and accountability, accountability, built in.

Not a coin. A *financial primitive*.

GRES\$ is the future asset-backed, NAV-pegged token. Six functions, one asset.

01 · Store of Value

Curated portfolio of first-tier real estate, held in perpetuity by Foundation custody.

02 · Yield & Appreciation

Real estate cash flows reflected transparently on-chain. Income and growth, fewer frictions.

03 · Qualified Collateral

Designed as collateral for on-chain credit, structured finance, and DeFi lending markets.

04 · Development Access

Tokenized participation in deals previously gated to institutional capital. Cross-border.

05 · Transaction Protocol

Settlement, registry, fractional transfer, cross-border payment rails. Open infrastructure.

06 · Data & Finance Platform

APIs and SDKs for fintechs and proptechs to build on top: valuation, mortgage, REITs.

The corner no real estate fund *occupies*.

The asset class is enormous. The digital primitive *does not yet exist*.

AI ORACLE MARKETS

Why now. MiCA gives the EU its first comprehensive crypto-asset framework, passportable across 27 markets. AI Oracles are technically feasible: daily NAV replaces quarterly appraisal cycles. Tokenization 1.0 has visibly failed, so the market knows what does not work. And modern capital is actively seeking real estate exposure that legacy 5 to 10 year fund structures cannot offer.

Six revenue streams. High-margin. *Asset-class scale.*

Stream	Rate / basis	Payment
Origination Fees	2.0% on capital raised	Fiat / Stablecoins
Asset Management Fees	1.5% / year on AUM	GRES\$ (12-month lock-up)
Performance Fees (Carry)	20% · 8% hurdle	GRES\$ (12-month lock-up)
Trading & Liquidity Fees	0.3% secondary volume	Protocol treasury
Financial Services Spread	Variable NIM	Protocol treasury
Builder Exit Fees	2.0% off-ramp	Fiat / Stablecoins

EBITDA-positive Year 3. *50% margin Year 5.*

KPI / metric	Year 1	Year 2	Year 3	Year 4	Year 5
Total AUM	\$10M	\$60M	\$200M	\$500M	\$1B
Token Price (GRES\$)	\$1.00	\$1.18	\$1.39	\$1.71	\$2.07
Operating Revenue	\$450K	\$3.2M	\$12M	\$33M	\$65M
Gross Margin	73.3%	75.0%	78.3%	81.8%	83.4%
EBITDA	-\$920K	-\$600K	\$2.7M	\$13M	\$32.5M
EBITDA Margin	-204%	-19%	22.5%	39.4%	50.0%

Forward-looking illustrations of intent, not forecasts or guarantees. Outcomes depend on execution and adoption.

Three phases. Genesis deployed. Blueprint *in progress*.

01 · Genesis · Deployed

Foundation & Community

- Contracts deployed & verified on Basescan
- BASE L2 + Gnosis Safe multisig treasury
- Whitepaper & Digital Assets Paper published
- Visual identity, site, community channels
- Platform backlog: 93 stories / 18 epics

02 · Blueprint · In Progress · 4 to 8 mo

Protocol & First Assets

- Independent Tier-1 contract audit
- Swiss-style Foundation formation
- EU filings (Spain / Lux / Liechtenstein)
- AI Oracle architecture · MiCA structuring
- Builder portal + ADD v1 (48h score)
- Transparency portal · LOIs with EU developers

03 · Ignition · 12 to 18 mo

Mainnet & Flywheel

- GRES\$ asset-backed token on mainnet mainnet
- AI-Augmented Oracle live (real-time NAV)
- First property tokenized (Proof of Deed)
- ERC-3643 native compliance layer
- Buyback activated · GRES\$/USDC liquidity
- Public Proof of Reserves · holder governance

Live infrastructure. Open-source contracts. *Active build.*

LIVE • GENESIS DEPLOYED

- Smart contracts deployed & verified on Basescan.
- Public site + community channels (X, LinkedIn, Telegram).
- BASE L2 + Gnosis Safe 2-of-3 multisig treasury.
- Whitepaper, Digital Assets Paper, Communication Charts published.

NEXT • BLUEPRINT IN PROGRESS

- Tier-1 smart contract audit (CertiK / Hacken).
- Swiss-style Foundation formation.
- Builder portal + Automated Due Diligence v1.
- LOIs with first EU real estate developers.

Lean by design. Built around *credentialed partners*.

TRUSTEES · FOUNDATION

To be appointed

Independent trustees with legal, real estate, and finance backgrounds, backgrounds, appointed in the Blueprint Blueprint phase. Custody governance governance separated from operations. operations.

STRATEGIC PARTNERS

Network

Tier-1 audit firm, legal counsel (Switzerland, Spain), EU real estate developers (LOIs), KYC/AML providers, providers, fintech and banking integrations.

Equity in the for-profit GRES Operator is the vehicle for institutional capital. The Foundation has no equity by design.

Fund Blueprint, built *with the community*.

\$1,000,000

TARGET · BLUEPRINT PHASE

COMMUNITY ENGINE

GRES.ALPHA pre-sale

A non-equity utility token. 4 lots, \$0.002 to \$0.010, \$1M hard cap. The people who believe in the build, fund the build. Buyback support and fee-reduction rights. Outcomes depend on adoption, not guaranteed.

INSTITUTIONAL TRACK · IN PARALLEL

Funds, accelerators, investors

Active conversations with European real estate funds, accelerators, and strategic investors: distribution, deal flow, and partnership. Equity in the GRES the GRES Operator available via SAFE / SAFT where it fits.

USE OF FUNDS

- Independent Tier-1 smart contract audit.
- Swiss-style Foundation formation.
- EU filings (Spain / Luxembourg / Liechtenstein).
- MiCA-aligned legal structuring.
- AI Oracle architecture & tech stack.
- Builder portal + ADD v1 (48h viability).
- Public transparency portal + LOIs with EU developers.
- Senior commercial hire (BD: developers, partners).

RETURN THESIS

- Value via NAV growth, no yield distribution.
- Foundation interest is non-dilutive by design.
- Exposure to a global financial primitive.

Real estate, re-architected.

To us, generational wealth means two things: lasting wealth for those who hold GRES, and a lasting world for the generations after us.
